Are you an aspiring student looking for professional experiences from an industry leading company that will prepare you for your post collegiate career? If the answer is yes, then the DLL Internship Program is your chance to set your skills apart from the rest. As a DLL intern you will be immersed in the day to day experiences of working as a professional and developing skillsets relevant to your career path. You will also learn aspects of the international leasing business and have the opportunity to network with an employee base of over 5,000 members.

### **About the Program:**

During your three- month (12 week) internship program, you will get to know our people, our products, and our business through the lens of a specific department with DLL. You will get exposure to local and global projects; including, your very own project that is specific to your individual role here. We want to listen to *YOUR* ideas and learn from what *YOU* have to offer.

Some factors that will allow you to use this program to accelerate your career:

- A comprehensive one- day onboarding program to meet all other interns, managers, and get high level understanding of structure of the internship program.
- Lunch activities throughout the program to enable you to network with other managers within DLL and ask questions to understand all of the career paths that DLL provides
- Opportunity to learn a professional skillset and be trained by your very own *Intern Ambassador*
- One on one resume review workshop
- End of summer presentation detailing your experience at DLL and the project you've invested in for the summer that is judged by a panel of DLL managers for feedback and improvement advice on your presentation skills

### **You'll be a great fit for this role if:**

- Pursuing a Bachelor's or Master's degree
- You are enthusiastic with high level initiative, flexibility, and willingness to embrace change.
- You have an entrepreneurial and innovative mindset
- You have excellent communication and interpersonal skills
